

## ATTENTION Lot Owners,

Utah Noxious Weed Laws in Wasatch County are in effect and will be enforced. Utah Administrative Code Rule R68-9 requires Utah residents to control Musk Thistle, Canada Thistle, and other weeds.

*“If it is deemed advisable, the Board of County Commissioners may cause noxious weeds to be controlled on a particular property and*

*any expenses incurred by the county shall be paid by the owner of record or the person in possession of the property.”*

The Timber Lake Common Area Committee and the TLPOA are contacting property owners who have not removed the thistle and noxious weeds from their lots. **Please check your lot!** One plant left to bloom will send thousands of seeds to surrounding areas.

You have several options:

- Spray, chop down, or remove on your own, immediately
- Hire a local group for the removal (see below)
- or the County will be called to spray and they will bill you for this work

To properly remove thistles this time of the year the seed heads and stalks should be chopped off and put in a garbage bag, and the base of the plant should be sprayed with herbicide. The garbage bags should then be put in the County dumpsters. **DO NOT PUT THISTLES IN THE TIMBER LAKES CHIP PILE.**

***Please do your part to protect wildlife habitat, neighborly relations, property values, and our beautiful mountain community by controlling these weeds on your property.*** After taking care of the invasive seed heads on your property this year, plan on spraying and killing any remaining plants in the spring – as this is the easiest way to eradicate them.

**In addition, if you would like to report a lot which contains noxious weeds, please send an email to the TLPOA Office, [office@TimberLakesUtah.com](mailto:office@TimberLakesUtah.com) .**

The Timber Lakes Common Area Committee and TLPOA Board of Directors appreciate your attention.

<b>Free Herbicide can be obtained at :</b> Wasatch County Public Works 1891 W 3000 South, Heber Phone (435) 654-1661	<b>Weed Removers for Hire:</b> The County has referred the following: 1. Steve Smith - 435-654-2741 2. Elite Grounds, Rob - 801-420-1849 3. Jeff Vesentin – 435-654-2143	<b>Seeds for Sale:</b> Wildflower and grass seeds for sale at the TLPOA office.
